

Security

We supply only the very best in CCTV surveillance technology from the leading manufacturers in the world. CS Telecoms can offer an entry level analogue system to the latest IP digital solution for whatever suits your business best. Off-site monitoring enables the user to view real-time activity from a smartphone or tablet keeping an eye on your investments every second of the day. Our solution includes full installation and after sales support to ensure that your purchase is a pleasant experience that exceeds your expectations.

Our off balance sheet rental option means that you can install a high-end CCTV solution with no upfront costs to your business. Our easy to accept rental also includes insurance for the full duration of the monthly rental contract.
